

# TLC PACK

Teaching Languages to Caregivers

# Providing language and intercultural support to migrant caregivers

**The TLC Pack project** focuses on developing 'occupational specific language resources' to support migrants already working in, or with aspirations to work in, the care giving sector. The project recognises the importance of developing complementary intercultural knowledge and insights, to be reflected within the final resource package.

The TLC Pack will be developed for levels A2 to B1/B2 of the Common European Framework of Reference for Languages (CEFR), and made **freely available** in six languages (Dutch, English, German, Greek, Italian and Spanish) to:

- enhance the language skills of migrant caregivers and those planning to work abroad;
- raise the awareness of cultural differences while promoting cultural understanding;
- provide the user with online and offline learning resources and opportunities;
- offer various modes of learning using video (dedicated YouTube channel), audio, text etc;
- be applicable for language courses offered by a range of organisations;
- develop a greater understanding of language and communication within the caregiving sector;

For further information on the TLC Pack project OR to find out how you , your students of staff can utilise the free resources please visit the project website:
